# ARE YOU CREATING THEM?

an infographic presented by (*N*) Net Nanny<sup>®</sup>

### IT'S HAPPENING NOW

over half of young people

don't tell their parents when cyberbullying occurs

kids are more likely to be bullied if they spend more than 10 hours a week online

over 50% of pre-teens and teens have been bullied online

over 50% of pre-teens and teens have engaged in cyberbullying

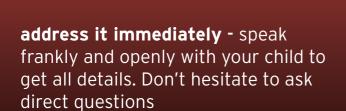

## COMMON CYBERBULLYING TACTICS

- 😮 upload pics or videos that embarrass victim
- Create fake Facebook accounts acting as the victim in a negative way
- pretend to be the victim in chat rooms, acting in embarrassing ways
- Share the victim's personal info in a public forum
- post rumors or lies about the victim publically
- S share embarrassing pictures of the victim in a public forum or email
- Suse text message or emails to send mean or threatening messages

about **4.1 billion text messages** are sent per day in the United States

## CYBERBULLYING SOLUTIONS

**ask about history** - determine if this is the first time for the incident or if it has been an ongoing problem

**make a plan** to resolve the problem with all parties

your plan might include talking to school officials, changing user names and passwords for your child's online profile, or speaking with the parents of the bully

understand their feelings to help you determine the urgency of the problem
